Expect 2-4 treatments for optimal results.

Laser Nail Treatment

Starting at \$50 per treatment

Treating Fungus (Onychomycosis). The cost varies depending on the number of nails involved and severity of the infection.

Expect 3-6 treatments for optimal results

Skin Tightening & Photo Damage Reduction

Starting at \$375 per treatment

Lux package: \$1,800

Face, neck, & décolletage

- 3 Treatments

- 90-day recovery product package

Non-surgical wrinkle reduction and/or skin tightening procedures work by using targeted energy to heat deeper layers of skin, which stimulates collagen and elastin production and gradually improves skin tone and texture while treating vascularity pigment issues. This is like a “photo-facial” to treat red and brown discoloration simultaneously.

For best results: 3 treatments, 4-6 weeks apart. Expect 1-5 days of downtime.

The SPA

At Southeastern Dermatology

Chris Jones, PA-C

2040 Fleischmann Rd.
Tallahassee, FL. 32308

Microneedling Treatment

Starting at \$300 per treatment

Lux package: \$1,400 per package

Treatment for face, neck, & décolletage

-3 Treatments

- Recovery product package

We feature the only FDA approved Microneedling device (SkinPen) which creates controlled micro-injuries to stimulate a natural wound healing process. This results in an effective remodeling of tissue, while keeping the overall structure of the skin intact.

For best results: 3 treatments, 4-6 weeks apart.

Expect 1-5 days of downtime.

Sublative, Radio Frequency Treatment

Starting at \$375 per treatment

Lux package: \$1,800 per package

Treatment for face, neck, & décolletage

- 3 Treatments

- Recovery product package

Achieve a more youthful appearance through improving skin tone and texture, treating mild to moderate wrinkles and textural irregularities. Over time, our skin is affected by sun exposure, loss of collagen and moisture. This treatment induces tissue remodeling, with increased production of collagen and elastin leading to skin tightening. We are able to deeply penetrate the skin and stimulate collagen production beneath the surface, while keeping the outer layer of skin intact.

For best results: 3 treatments, 4-6 weeks apart.

Expect 1-5 days of downtime.

BOTOX®

Botox is a neurotoxin derived from Clostridium botulinum, an organism found in the natural environment where it is largely inactive and non-toxic. Botulinum toxin is used to reduce fine lines and wrinkles by paralyzing the underlying muscles.

JUVÉDERM®

Juvéderm is a family of injectable hyaluronic acid dermal fillers used to provide 9 months to one year of correction for moderate to severe facial wrinkles and folds, such as nasolabial folds (lines from the nose to the corners of the mouth). Hyaluronic acid is a naturally occurring sugar found in the body.

JUVÉDERM® UltraXC

Adds more fullness and plumps thin lips—whether your lips have thinned over time or you simply want fuller lips.

JUVÉDERM® UltraPlus XC

Smooths facial lines and treats more pronounced facial creases. Restores the youthful volume that can diminish over time.

JUVÉDERM VOLUMA® XC

adds volume to correct age-related volume loss in the cheeks to help create a more youthful appearance.
